QUALITY CONTROL ASSOCIATE – Midday Shift (noon-8:30 pm)
Full Time
Lincolnshire, IL, US

POSITION PURPOSE: Assures consistent quality of production by developing and enforcing good automated manufacturing practice (GAMP) systems, validating processes, and providing documentation. The driving force behind improving and sustaining quality improvements per ISO standards.

PRIMARY JOB REQUIREMENTS:

- Achieves quality assurance operational objectives by contributing information and analysis to strategic plans and reviews.
- Recommends system improvements and implementing change.
- Follows quality processes by establishing product specifications and quality attributes.
- Participates in product, company, system, compliance, and surveillance audits.
- Participates in preparing quality documentation and reports by collecting, analyzing and summarizing information and trends including failed processes, stability studies, recalls, corrective actions, and re-validations.

TECHNICAL REQUIREMENTS:

- Computer proficiency including good data entry skills.
- Previous experience using Microsoft Outlook, Word and Excel.
- General math skills.

PHYSICAL REQUIREMENTS:

- Stand/Walk - Possess the ability to stand and walk on feet all day while being in constant motion.
- Lift - Possess the physical strength and ability to lift totes and cases weighing up to 50 lbs. without risk of injury to self or others.
- Reach - Be able to reach totes or cases from conveyor system.
- Push - Possess the strength to safely push carts of totes or cases without risk of injury to self or others.

EDUCATION/EXPERIENCE: Minimum educational background of high school diploma/GED is required. A qualified applicant will also demonstrate math proficiency. Because the nature of this position entails following quality control processes, working knowledge of warehouse processes and warehouse management systems is desired. Prior quality control and auditing experience required.
