

Company/Organization Name: Little Fort Media

Location: 113 North Genesee, Waukegan, IL

Position/Title: Web Coder

Duties/Responsibilities: Web Development and Maintenance and other graphic art assistance:

We are looking for a person whose primary skill would be web coding. We need a person who is knowledgeable in using HTML and CSS to work on the backend of websites, not just the WYSIWYG view.

Since our web work is an important but not a major part of what we do, the person should also have some experience in setting up physical media projects (brochures, posters, business cards, etc), which are the primary part of what we do. The person should have some ability to find spelling and grammatical errors by reading instead of by just relying on proofreading tools, and should relish learning and applying new skills ... we are all multi-taskers .

Salary Range: \$20.00/hour if CSS and HTML experienced

Application Instructions: Call: 847.244.9666 or drop in between 11am and 6pm.

To Apply Online: Email regis@littlefortmedia.com
